Carax, multipurpose trailer for intensive use

The Carax is a multipurpose trailer for professionals who wants to transport large vehicles like vans and SUVs. The Carax is available in the weight class of 3000 or 3500 kg, tandem or tridem and a loading floor dimension of 440x207 cm or 540x207 cm. The steel ramps with a length of 250 cm are stored in the chassis. This strong chassis provides optimum floor support for the aluminium loading floor.

The Carax multipurpose trailer is 100% wood-free and low-maintenance!

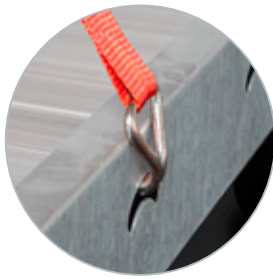

The Carax is available as tandem and tridem version

Everything a car transporter needs

The sophisticated design makes the Carax user-friendly. The most striking Carax detail is the fold at the rear of the loading floor. This allows longer vehicles to load and unload without any problem. Wheel stops and lashing straps are easy to mount through the specially designated recesses. The Carax is equipped with clear front, side and rear lights and LED contour lights. All Hulco Carax models are fitted with A-quality axles, clutch and overrun brake.

LED marker lights at the front

Recesses for tie-down possibilities

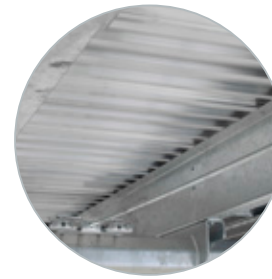

Steel ramps (250 cm) included

Lowered load floor at rear

Position lights (LED) included

Strong chassis and maximum floor support

Integrated marker lights (LED) at the sides

Premium brake system

Channel for ramps

Suitable for large vehicles

Automatic jockey wheel

Long A-frame made out of tube-profile

Robust robot welded chassis

Recesses for straps

Premium quality axles and wheels

Integrated markerlights (LED)

LED position lights

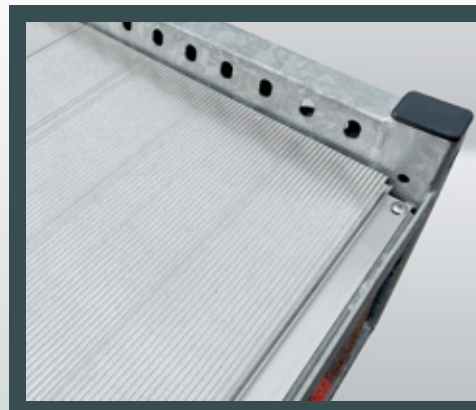

Carax accessories

The Carax can be extended with a winch and support. The winch can be positioned on both the left and right position and is adjustable in length.

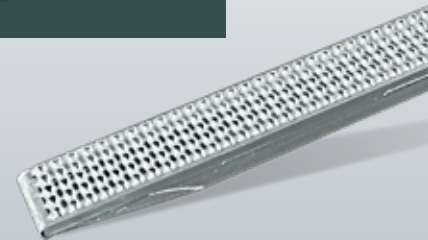

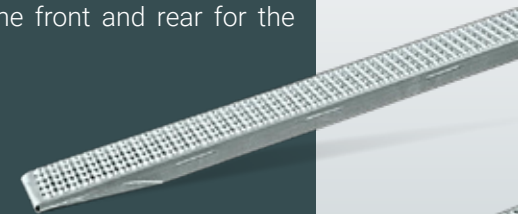

For securing a vehicle on the Carax, Hulco offers a complete system with wheel stops and Easyfix straps.

If you want more driving comfort, mounting shock absorbers is an option. This is recommended for intensive use of the Carax.

THE CARAX CAN HANDLE ALL VEHICLES

The strong aluminium loading floor with its optimum grip and support can carry a lot of weight. The loading floor has a channel at the front and rear for the ramps.

Accessorie:
Easyfix straps

Accessorie: A foldable
jockey wheel makes a
drive-through possible

Accessorie:
Propstands,
in one-hand useage

Accessorie: Adjustable
