GT-VT box van trailers for safe transport

Aimed at a variety of different users who need to transport large volumes in an enclosed trailer, Anssems developed the GT-VT box van trailers. Both the tailgate ramp and the lid can be opened, now you can easily access your goods inside the trailer. Because the ramp tailgate is removable the trailer can also be loaded with a forklift.

Beautifully finished

The trailers come as standard with zinc plated steel prop stands for added stability when unloading and loading your trailer. On the inside you will find integrated railings at different heights to easily position the tie-hooks for securing your load. The lighting, jockey wheel, axles, coupling and brake-system are all of premium quality.

Hint: All models within the range are extremely suitable for wrapping or sign writing which can transform your GT Trailer into a rolling advertisement for your business.

The aluminium tailgate ramp is easily removable

Marker lights at the front

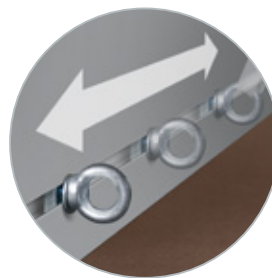

Standard equipped with propstands

Safely and lockable

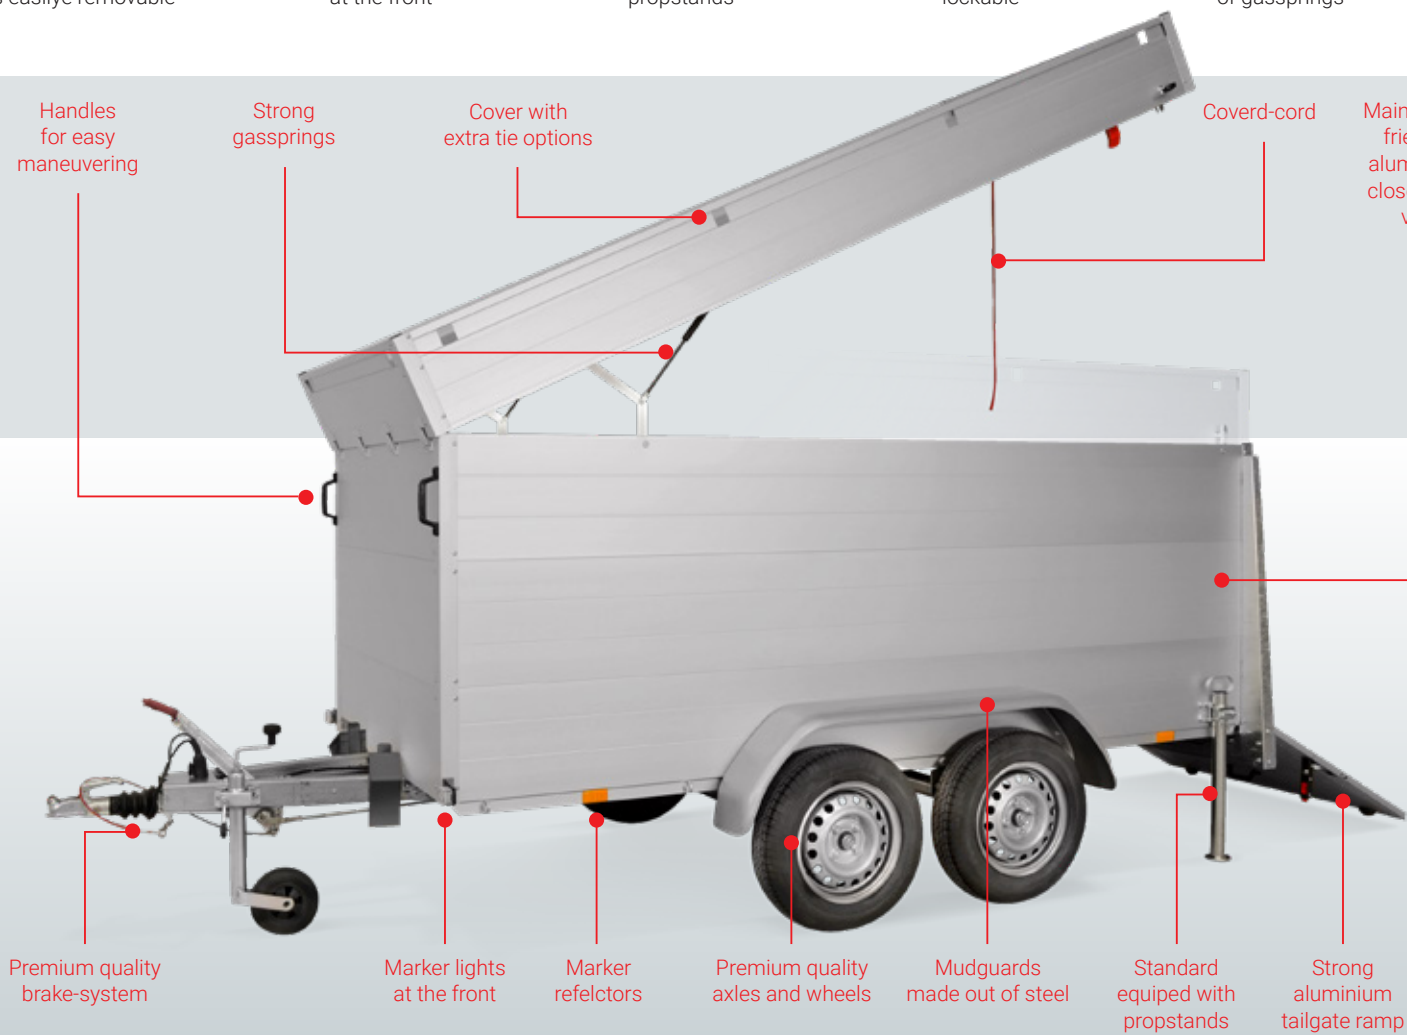

Cover opens easily because of gas springs

Integrated railing for free positioning tie-hooks

Optimally accessible cargo hold

Anssems

Low air resistance

Available in three different heights the GT-VT range retains a maximum load capacity while keeping the overall height to a minimum, thanks to the elevating lid, helping to cut down on fuel costs, which trailer will you chose?

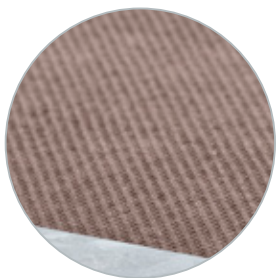

**“THANKS TO MY ANSSEMS GT-1500
I CAN DELIVER QUICKLY”**

VT2 with an inner height of 118 cm
standard equiped with railings on 3 heights
supplied tie hooks: 4 pieces.

VT3 with an inner height of 153 cm
standard equiped with railings on 4 heights
supplied tie hooks: 6 pieces.

Equipped with
high grip
plywood floor

Standard equipped
with 2 maneuvering
handles

Accessorie:
Axle shock absorbers for
extra comfort

Accessorie:
spare wheel
with support

Accessorie:
tie eyes

Accessorie:
tie hooks

VT4 with an inner height of 188 cm
standard equipped with railings on 5 heights
supplied tie hooks: 8 pieces.

Safely securing your load

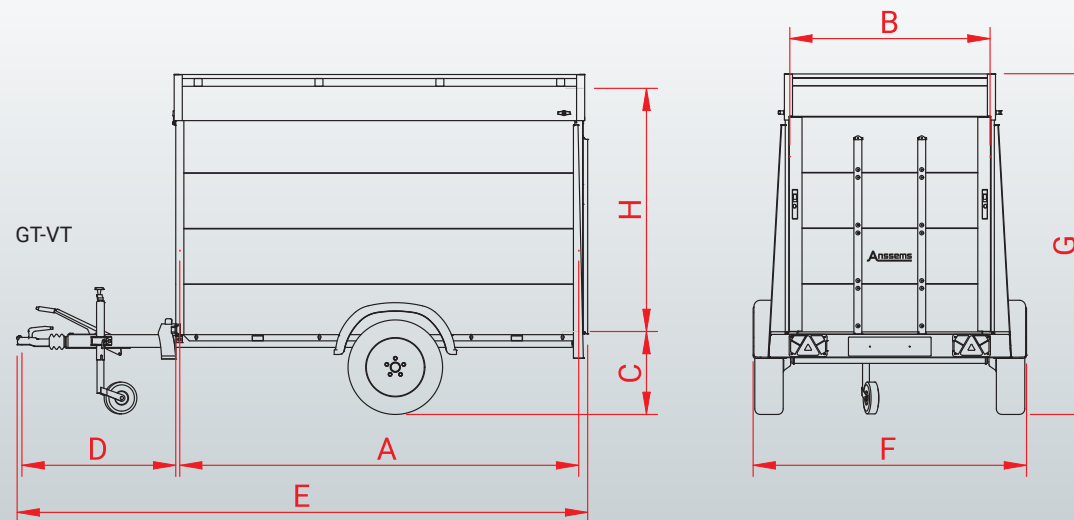

You can adjust the tie hooks at any desired position by using the tie rail which is located on different heights in the aluminium sides. You can remove the tie hooks to create smooth sides in the cargo hold.
