## KLT tipping trailers, a reliable workhorse

These budget-friendly, backwards tipping trailers benefit from a low unladen weight meaning they can be used for many applications. The tipping function is operated manually from the A-frame position. The wheel position under the loading floor gives the Anssems KLT a large load area which is easily accessible with the side- and rear panel lowered. All KLT models come as standard with multiple tie down points to help keep your load secure.

KLT single axle braked  
with hydraulic hand pump

KLT tandem braked  
with hydraulic hand pump

## Durable and low weight

The manufacture of the KTL chassis is extremely accurate, using state-of-the-art CNC laser-cut and robot-welded profiles. All parts of the chassis are fully galvanised. The strong loading floor is made of high-grip waterproof plywood, supported by heavy-duty galvanised steel cross-members. Thanks to its smart design, the KTL range maintains maximum load capacity.

**“THE ANSSEMS KLT IS  
EXACTLY WHAT  
I WAS LOOKING FOR”**

A-frame tubes extend to the rear

Reliable and clear lightings

Easily accessible loading floor

Sides easy to open and close

Hydraulic tipping system

Tie rail for movable net- and tie hooks

8 Tie hooks on the edge of the loading floor

**Anssems**

## Multiple possibilities

The KLT backwards-tipping trailers offer great performance, and you can increase their performance and usability by mounting the KLT accessories. Ansems offer plenty of optional extras within the KLT range, allowing you to create a tipper that meets all your requirements.

**“THE EXTENDED PANELS ARE MY  
NUMBER ONE ACCESSORIES”**

The ladder rack is the number one KLT accessory, offering more mounting options and increasing load protection.

The 30cm extension sides create a total loading height of no less than 60cm. The flat cover is easy to assemble, even when combined with the extension sides.

Accessorie:  
axle shock absorbers for  
extra driving comfort

Accessorie:  
spare wheel

Accessorie:  
spare wheel support

Accessorie:  
net hooks

Accessorie:  
steel ladder rack

Accessorie:  
flat cover

Extended panels  
(height 30 cm)

## Comfort and manoeuvrability

The user-friendly towing properties and reliable braking and lighting system guarantee safe and simple operation. Thanks to its compact size and straight-forward operation, the KLT trailer makes light work of transporting bulk goods, such as building materials, logs, or garden waste, to site.
