**“MY COMPANY
CAN’T DO WITHOUT
THE ANSSEMS AMT”**

AMT - Performs again and again

A very versatile, practical, and multipurpose trailer was at the heart of our development process for the AMT car transport range. Maximum load capacity has been achieved through a clever construction process, using only lightweight aluminium and steel components. A 100% wood-free construction helps to achieve incredible weight savings throughout the AMT family. With the use of a full-width aluminium floor, you can use the AMT for many different applications, not just car transport; it is also suitable for quad bikes, garden machinery, small tractors, and diggers.

AMT single-axle braked
(closed floor)

AMT tandem braked
(closed floor)

It’s fully equipped

The Anssems AMT is fully equipped with a winch, lightweight aluminium ramps, and easy-to-use propstands. The low floor height makes loading and unloading simple. The side panels are just 18 cm high, making accessing the vehicle that’s being transported easy. As with all Anssems Trailers, the AMT’s lighting, axles, coupling and braking system are of Premium quality, so you can enjoy the ATM car transporter for many trouble-free years!

Most chosen accessories: wheelstops and weldmesh extensions.

Reliable and clear lightning units

Marker lights at the front and sides

Aluminium ramps in integrated ramp holders

An adjustable winch support for left- and righthand use

One-hand use propstands

Accessory; spare wheel with support

Accessory; Full width wheelstop with tying up options

**“YOUR CAR IS ON
THE AMT-ECO
BEHIND THE CAMPER”**

AMT-ECO

The AMT-ECO is constructed using the same high standards as the rest of the AMT range, and is specifically designed to reduce weight and cost. Its maximum load capacity is achieved through clever construction and an open floor system. The AMT-ECO is equipped with aluminium ramps and easy-to-use propstands. It is very popular amongst motorhome owners for transporting a second car, classic car enthusiasts, as well as race car owners.

Safe Transport

As a trailer manufacturer, we take the safety of our customers and all road users very seriously. That is why we developed the Anssems Over Wheel Strapping System, which uses our Easyfix Straps. Together with a full-width wheel stop and built-in tie-down points, you can securely secure your vehicle in a matter of minutes.
