## KSX tipping trailers with class

The robust Anssems KSX is a tipping trailer for intensive use, with a backwards or three-way tipping function up to 49°. The KSX has a robot-welded chassis and a V-drawbar with a long free length of 145 cm, which is very stable. The top chassis is equipped with many longitudinal beams, providing excellent support for the steel floor plate.

KSX backwards or 3-way  
tipping trailer  
(Tilt control: manual)

KSX backwards or 3-way  
tipping trailer  
(Tilt control: electric)

KSX Go-Getter  
3-way tipping trailer  
(Tilt control: electric)

The KSX-E models have an electric tipping function with remote control, built-in battery and a supplied battery charger. With the remote control, you have a good overview when unloading. The KSX-H models are equipped with a hydraulic hand pump, which is a good choice if you don't use the tipping function regularly.

## The KSX Go-Getter stands out

The Go-Getter stands for reliability and professionalism, making you stand out from the crowd. The KSX-Go-Getter is a tipping trailer with a range of additional features, including black aluminium panels, a 40-litre black toolbox, and black steel rims, all of which come with LED lighting. Get your Go-Getter now!

KSX GETS THE  
JOB DONE”**

## KSX, multifunctional and sustainable

During the development phase of the KSX trailers, the key word was multifunctionality. Depending on what you want to transport, the different KSX models and the many accessories can be adjusted to your individual requirements. Heavy loads such as sand, rubble, firewood, or garden waste? It's a piece of cake for the Anssems KSX!

More transport volume is created thanks to the extension sides, an often used accessory, with an internal loading height of 65 cm.

net hooks  
(for tie-rail)

Accessorie:  
spare wheel

Accessorie:  
axle shock absorbers  
for extra comfort

Accessorie:  
spare wheel  
support

Popular amongst many KSX users is the ladder rack, offering more binding options and cargo protection.

The 70cm extension sides will create a total height of 100cm. The KSX can handle even more types of loads.

A KSX with mesh sides of 70 cm offers a multitude of possibilities for transporting a wide range of cargo. (The total height is 100 cm).

A KSX with a high cover, with internal heights of either 150 or 180 cm, that includes a durable tarpaulin fabric, a steel frame, aluminium slats, binding hooks, and an elastic cord.

## Versatile trailer

The KSX tippers are very versatile and can be perfectly adapted to your requirements with the accessories. View all KSX models [here](#).
