MSX, the ideal vehicle transporter

For the transportation of lawn mowers, small excavators or cars, Anssems offers the MSX multipurpose trailer solution. Designed for intensive use and up to a weight of 3500 kg, the MSX series is specifically created to carry either tracked or wheeled vehicles. Equipped with multiple strapping options and steel ramps stored beneath the floor, the robot welded steel and fully galvanized chassis creates a robust MSX mulittransporter. The chassis provides maximum floor support.

**“THE MSX-2700
CAN HANDLE ALL
MY EQUIPMENT”**

MSX 2700 Basic

The MSX-Basic is an ideal multitransporter for the cost-conscious buyer seeking all the comfort of a professional multitransporter. This MSX has a load capacity of 2180 kg and is equipped with a waterproof plywood loading feed, steel plates in a storage cassette beneath the floor, as well as numerous tie-down points.

MSX accessories

Increase the capability of the MSX by mounting a wide range of accessories. Wheel stops and winches are the most popular, whilst propstands provide extra stability when driving up and down and axle shock absorbers offer more driving comfort. For extra binding options, mount the MSX ladder rack and the extension sides provide extra protection, whilst the spare wheel reduces delays in the event of a tyre failure.
