Carax, multipurpose trailer for intensive use

The Carax is a multipurpose trailer for professionals who want to transport large vehicles, such as vans and SUVs. The very strong chassis provides optimal floor support, and the steel ramps are located under the floor. The most striking feature of the Carax is the articulation at the rear of the loading floor, which allows bigger vehicles to drive on and off without difficulty. Wheel stops and lashing straps can be easily fitted through the special recesses.

Carax accessories

The Carax can be extended with a winch and support, which can be positioned on both the left and right side, and can be adjusted in length. For securing a vehicle on the Carax, Hulco offers a complete system with wheel stops and Easyfix straps. For increased driving comfort, fitting shock absorbers is an option and is recommended for intensive use of the Carax.

THE CARAX CAN HANDLE ALL VEHICLES

The strong aluminium loading floor with its optimum grip and support can carry a lot of weight. There are channels at the front and rear for the ramps.
